

1. TradeStation offers Mind Kinesis students:

- **Free for life software (platform and radar screen) using flat ticket commission pricing**

Free platform & Radar screen for all of Mind Kinesis students, whether they go with the per share or flat fee pricing.

- **60 days free non-professional data**

If you choose the flat fee at \$5/trade then we can include free stock & options data at no cost. This included the NYSE, AMEX, NASDAQ, & OPRA for options. If they select the per share then we can only cover for the first 90 days, following it would be about \$6/month. Through the new promotion with the flat fee if they choose that option we are covering the pass through cost as well from the data, so that is nice. I would suggest most student go with the flat fee unless they are trading really small to start, then the per share might be best.

- **~~\$5,000~~ \$500 minimum to open and fund an account for Mind Kinesis students, balance does not need to be maintained**

2. Student's Contact Point:

Name: Joe Ferrio

Contact No.: 1(954)652-7411

Email: jferrio@tradestation.com

Should Mind Kinesis students have any questions in the process, they can reach out to Joe's phone or email at their convenience. Email probably easiest due to the time difference we share, but if need be they can email with a good date and time and Joe can always set up a time for a call.

To enjoy waiver of maintenance fees, enter Promotional Code: 0100AEFX on the application. This will allow Joe to track them as Mind Kinesis students and waive out the cost of the platform & Radar Screen for them as promised.

3. Charges involved in buying/selling of stocks and options, and the assignment of options.

Qn 1: What is the minimum funding required before they can buy/sell the stocks?

Ans: USD 500. Balance does not need to be maintained

Qn 2: What is the commission rate for buying/selling US stocks?

Ans: \$4.99 per trade (200+ trades/month)  
\$6.99 per trade (50 - 199 trades/month)  
\$8.99 per trade (1 - 49 trades/month)

Qn 3: What is the commission rate for buying/selling US options?

Ans: USD 1 / contract  
\$4.99 per trade + \$0.30 per contract (200+ trades/month)  
\$6.99 per trade + \$0.50 per contract (50-199 trades/month)  
\$8.99 per trade + \$0.70 per contract (1-49 trades/month)

Qn 4: What are the fees of assignments of options?

Ans: USD 14.95

Qn 5: Other Charges - If their account is activated, and they did not do anything with it, are there any hidden charges?

Ans: USD 99.95/mth (will be waived when this Promotional code: 0100AEFX is entered in during the opening of account process)

Qn 6: Tax - Assuming that they make money out of capital gains, dividends and options premium. What US Tax does the Japanese needs to pay? (Eg. 30% withholding tax from the dividends, etc.)

Ans: Exempted upon W-8BEN form
